

IMPERMEABLE – COMMERCIAL CHECKLIST

Required Application Forms:

- Building Permit Application
- Zoning Calculation Worksheet for Lot Coverage (new or reconfiguration)
- Certificate of Appropriateness Application

Required Additional Documents:

- Written description of work scope and specifications (or copy of signed contract)
- Two (2) copies current Plat of Survey (to scale) not more than 5 years old
 1. Replacement – highlight location
- Six (6) copies current Plat of Survey (to scale) not more than 5 years old
 2. New – accurately scale with dimensions & distances to property lines
- Six (6) copies proposed plan drawings
- Two (2) copies tree protection plan (if applicable)
- Parking lot striping to include ADA compliant spaces complete with dimensions & total number of spaces (if applicable)

Driveway / Parking Lot Compliance Items on Next Page

Driveway / Parking Lot Compliance Items:

- *No runoff into neighboring properties*
- *Maintain natural (existing) drainage patterns. No damming of water on adjoining properties*
- *Maximum width of driveway where it meets public sidewalk or property line is 22 feet. Do **NOT** pave over public sidewalks*
- *Where driveway will be placed along property line, slope ¼" per feet away from property line (away from neighboring property & toward own property) to avoid runoff into adjoining property*
- *No metal edging (edging of any material) within 18 inches of sidewalk. Edging on parkway is allowed but Village is **NOT** responsible for damage or replacement of edging on public right of way*
- *Brick, stone & other decorative paving material may be used on public right of way. However, if damaged (due to utility work, road work or snow removal) by the Village, repairs will be made only in bituminous concrete (asphalt) or Portland cement concrete*
- *Existing drainage locations must be maintained*

Building Permit Application

Permit #: _____

Date Received: _____

Permit Address _____ Winnetka, IL 60093

Description of Work _____

Estimated Construction Cost \$ _____ (required)

CONSTRUCTION COST includes cost of material and labor; we may request submittal of a signed contract. The applicant hereby certifies that the total value of construction as stated above is an accurate and truthful estimate of the total value of all labor and materials for the new construction or improvement, including all finish work, painting, roofing, electrical, plumbing, HVAC, paving as well as any general contractor's fee. The general contractor's fee shall be included even if the owner and general contractor are the same.

Submittal Requirements:

Please refer to the appropriate checklist for your particular type of permit work for application submittal requirements. All items identified on the worksheet(s) must be submitted with this application form in order for the application to be deemed complete.

Disclosure & Signatures:

The information submitted in this Building Permit Application may be used by the Village of Winnetka and/or any of its contractors or consultants. By signing below you certify that:

- the information and exhibits herewith are true and correct;*
- you are the owner of record of the named property, the proposed work is authorized and that the registered professional or contractor submitting the application is authorized to do so;*
- you agree to conform to all applicable laws, statutes, ordinances, and codes of this jurisdiction, including those adopted by reference; and*
- if the permit sought is approved, the permit work will be completed in accordance with the Village Codes and within the scope of work described in the application and the approved construction documents*

Application for a permit shall constitute the owner's consent to all inspections of the permit work that may be required pursuant to the Village Codes and to the right of all building officers to enter onto the premises during reasonable hours to conduct such inspections.

Signature of Property Owner: _____ Date: _____

Print Name: _____

ZONING CALCULATIONS IMPERMEABLE LOT COVERAGE

Impermeable surfaces are limited under the Winnetka Zoning Ordinance, and may not exceed fifty percent (50%) of lot area for residentially zoned parcels. Impermeable surfaces include “any surface that does not allow water to drain, seep, filter or pass through into the ground below”, and include, without limitation, all buildings other structures, as well as driveways, sidewalks, walkways, patios, tennis courts, swimming pools and other similar surfaces. All impermeable surfaces are counted at 100%*.

**The only exception to this rule is a “designed permeable surface”, which is a pavement system designed to allow water to pass through voids in the paving material or between pavers to a designed subsurface storm water storage layer and underdrain system. Such surfaces may be counted at 75% if the engineering department approves the system’s compliance with the standards outlined in the ordinance. If your project includes the required subsurface storm water storage layer and underdrain system, then you must contact the engineering department at (847)716-3530 to find out if your project qualifies for this allowance.*

Of the maximum permitted (50%) impermeable lot coverage, a maximum of 25% of the lot area may be devoted to buildings and roofed areas. Thus, the maximum allowable area for additional impermeable surfaces, other than buildings and roofed areas is flexible. For example, if buildings and roofed surfaces cover 20% of the lot, up to 30% of the lot may be covered by other impermeable surfaces. These percentages are not interchangeable and the maximum allowable lot coverage devoted to buildings and roofed areas cannot exceed 25%.

In the R-5, R-4, and R-3 zoning districts a maximum of 30 percent of the required front yard may be covered with any material (impermeable surfaces, areas with roofed lot coverage, gravel or crushed stone driveways, etc.). If applicable, provide detailed representation and calculations of such area.

MAXIMUM PERMITTED IMPERMEABLE LOT COVERAGE

LOT AREA _____ Sq. Ft. x 0.50 = _____ Sq. Ft

EXISTING IMPERMEABLE LOT COVERAGE

Using a current Plat of Survey, calculate the **existing** area covered by impermeable surfaces, other than buildings/roofed areas.

TOTAL EXISTING IMPERMEABLE LOT COVERAGE = _____ Sq. Ft.

PROPOSED (NEW) IMPERMEABLE COVERAGE

Using the proposed Site Plan, calculate the area of all **proposed** impermeable surfaces to be added, other than buildings/roofed areas.

Totals summarized to left must be detailed on an attached sheet.

TOTAL PROPOSED IMPERMEABLE LOT COVERAGE = _____ Sq. Ft.

TOTAL (EXISTING + PROPOSED) IMPERMEABLE and BUILDING LOT COVERAGES

Building Area (Existing and Proposed)		_____ Sq. Ft.
Existing Impermeable Area	+	_____ Sq. Ft.
Proposed (New) Impermeable Area	+	_____ Sq. Ft.
TOTAL	=	_____ Sq. Ft.

COA

VILLAGE OF WINNETKA, ILLINOIS

DEPARTMENT OF COMMUNITY DEVELOPMENT

CERTIFICATE OF APPROPRIATENESS
APPLICATION

In accordance with Winnetka Village Code [Section 15.40.010] a Certificate of Appropriateness of Design is required when work to be performed affects or involves an external architectural feature of a building, structure or site, whether or not such work requires a building permit.

A Certificate of Appropriateness is not required for single family residences, but is required for any exterior building alterations, site alterations, or additions to multiple family residences, institutional uses, and commercial buildings.

External architectural features include any building or site element(s) that affect the architectural style, or the general arrangement and appearance of the exterior of a building, other structures or site. Such elements include, but are not limited to, the characteristics, colors, finishes, and placement of windows, doors, lighting components and other appurtenant features of a building; the species, placement and overall arrangement of plant materials; the location of appurtenant site elements such as parking and service areas and the necessity of screening; the location, appearance, finish, and design of building and site lighting.

Evaluation by the Design Review Board is based upon Design Guidelines adopted by the Design Review Board. A copy of the Design Guidelines can be requested by contacting the Community Development Department at 847.716.3527. The Design Guidelines are also available online at www.villageofwinnetka.org.

REQUIRED MATERIALS FOR SUBMISSION

The Applicant must provide 1 hard copy and 1 electronic copy (.pdf), of the following information. (Email electronic copy to cmarx@winnetka.org.)

- Complete application form (attached);
- Application Fee
 - Alteration to existing building \$125.00
 - Building additions, new construction \$450.00
- Current color photographs of building and site subject to alterations;
- One (1) set of plans, renderings, elevations and material specifications (see "Submittal Requirements" on following page);
- One (1) material sample board, consisting of actual material samples, color chips, and/or color catalog sheets, as may be appropriate to the scope of the project;
- It is highly recommended that an application be accompanied by a statement from the appropriate design professional describing the project's design approach and means used to satisfy the general requirements and specific elements of the Design Guidelines.

Awnings – additional application required. New awnings and modifications to existing awnings are subject to approval by the Design Review Board. A separate awning permit application must be submitted if work includes new or modified awnings.

Signs – additional application required. Any permanent sign (to be displayed more than 30 days) and any temporary sign larger than eight (8) square feet are subject to approval by the Design Review Board. A separate sign permit application must be submitted if work includes new or modified signs.

S U B M I T T A L R E Q U I R E M E N T S

ALTERATIONS TO EXISTING BUILDINGS OR NEW BUILDINGS

Maintaining the character of the Village is of prime importance to the Design Review Board and the Village residents. Therefore, it is required that each submission to the Design Review Board demonstrate sensitivity to context by providing the necessary street elevation(s) and cross sections along with current photos of the adjacent buildings within a 50-foot distance on each side of the proposed building and the elevations of the existing buildings located across the street.

In order to retain the Village character, it is required that the dominant architectural forms, materials and style be incorporated into the proposed building/development. Building materials and finishes shall be called out and specified in as full detail as possible.

Items which should be submitted will vary depending on the scale of a project. Therefore, it is recommended that a pre-application conference be scheduled with Village staff to determine what may be necessary for an application. Please call Christopher Marx, Associate Planner at 847.716.3587 to discuss submittal requirements or to make an appointment.

Examples of submittals include, but are not limited to:

Site Work

- Architectural site plan, detailing proposed location of buildings and other site improvements, parking and internal circulation;
- Detailed landscape plan, indicating character and arrangement of plant materials, hardscapes and site circulation pattern;
- Open space features;
- Plant schedule with size, species and quantities indicated;
- Detailed plans for compliance with parking area, internal and perimeter screening requirements;
- Public streetscape plan, indicating all existing trees and improvements, plus any modifications to streetscape hardscapes or plant materials;
- Preliminary grading plan, if any changes are contemplated;
- Site lighting plan.

Neighborhood / Adjacent Building Context

- Photos of adjacent buildings within 50 feet of each side of the proposed building in all directions including across the street(s);
- Elevation drawings of proposed building(s) in context of adjacent buildings, with adjacent building shown at proper scale and appropriate level of detail.

Architectural Elevations and Plans

- Detailed conceptual building elevations, roof plan and other details which visualize building scale, massing and level of detail;
- Specific call-outs of all exterior building materials;
- Windows and doors fully detailed, including dimensions, materials and glazing patterns;
- Ancillary building details, including lighting and signage;
- Where existing buildings are being modified, plans should show existing and proposed details;
- Exterior millwork details;
- Any other exterior details or elements of design.

Manufacturer Cut-Sheets and/or Product Samples

- Roof materials
- Wall materials
- Window / door products
- Light fixtures

Village of Winnetka
CERTIFICATE OF APPROPRIATENESS APPLICATION

Applicants and/or their representatives are required to attend the Design Review Board meeting in order to address issues raised by Board members. The Design Review Board meets on the third Thursday of each month. Please refer to the following schedule of meetings and submittal deadlines:
