VILLAGE OF WINNETKA, ILLINOIS

DEPARTMENT OF COMMUNITY DEVELOPMENT

CERTIFICATE OF APPROPRIATENESS
APPLICATION

In accordance with Winnetka Village Code [Section 15.40.010] a Certificate of Appropriateness of Design is required when work to be performed affects or involves an external architectural feature of a building, structure or site, whether or not such work requires a building permit.

A Certificate of Appropriateness is not required for single family residences, but is required for any exterior building alterations, site alterations, or additions to multiple family residences, institutional uses, and commercial buildings.

External architectural features include any building or site element(s) that affect the architectural style, or the general arrangement and appearance of the exterior of a building, other structures or site. Such elements include, but are not limited to, the characteristics, colors, finishes, and placement of windows, doors, lighting components and other appurtenant features of a building; the species, placement and overall arrangement of plant materials; the location of appurtenant site elements such as parking and service areas and the necessity of screening; the location, appearance, finish, and design of building and site lighting.

Evaluation by the Design Review Board is based upon Design Guidelines adopted by the Design Review Board. A copy of the Design Guidelines can be requested by contacting the Community Development Department at 847.716.3527. The Design Guidelines are also available online at www.villageofwinnetka.org.

ALTERATIONS TO EXISTING BUILDINGS OR NEW BUILDINGS

Maintaining the character of the Village is of prime importance to the Design Review Board and the Village residents. Therefore, it is required that each submission to the Design Review Board demonstrate sensitivity to context by providing the necessary street elevation(s) and cross sections along with current photos of the adjacent buildings within a 50-foot distance on each side of the proposed building and the elevations of the existing buildings located across the street.

In order to retain the Village character, it is required that the dominant architectural forms, materials and style be incorporated into the proposed building/development. Building materials and finishes shall be called out and specified in as full detail as possible.

Items which should be submitted will vary depending on the scale of a project. Therefore, it is recommended that a pre-application conference be scheduled with Village staff to determine what may be necessary for an application. Please call Christopher Marx, Associate Planner at 847.716.3587 to discuss submittal requirements or to make an appointment.
