DEMOLITION PERMIT APPLICATION

Applications for demolition of a principal structure on any property are subject to review by the *Landmark Preservation Commission (LPC)* to evaluate structures to be demolished for architectural or historic significance. **The attached application form shall be accompanied by all required supporting documentation.**

Upon receipt of a complete application, Village staff will review Village property files and consult with the Winnetka Historical Society to document the property history, including but not limited date of original construction, alteration permit records, property ownership information, and architects involved. The applicant is encouraged, but is not required, to submit any additional information on the property including interior photographs, floor plans, ownership history or other information which may help to establish the condition and character of the structure as well as any and alterations thereto. If you have any questions, you may contact Christopher Marx, Associate Planner, at 847.716.3587 or cmarx@winnetka.org.

The application materials and information gathered by Village staff will be transmitted to the LPC and evaluated at its regular monthly meeting, scheduled for the first Monday of each month at 7:00pm. **Applicants are required to attend the LPC meeting** to address issues or questions raised by Commissioners.

The LPC meets on the first Monday of each month. Please refer to the following schedule of meetings and submittal deadlines:

Scope of initial review – In the event a structure proposed for demolition is found to have possible architectural or historical significance during the Landmark Preservation Commission’s preliminary review of the application, the Commission may require that the applicant complete a more detailed *Historical Architectural Impact Study (HAIS)*. If an HAIS is required, the LPC will require that applicant consult with an architectural historian to conduct additional detailed research and to prepare an HAIS. Once the HAIS is submitted by the applicant, the HAIS is transmitted to the Historical Society for comment and to the LPC for review and determination regarding the historic or architectural significance of the structure. An HAIS need not be submitted, and will not be accepted, until the LPC makes a determination during its preliminary review of the necessity for an HAIS.
