Outlets for Recycling Electronics

About SWANCC

The Solid Waste Agency of Northern Cook County (SWANCC) is an intergovernmental agency that was established in 1988 and is comprised of the following 23 communities:

SWANCC provides member residents with a variety of waste reduction and recycling services, programs and resource materials, to include collections for special materials that cannot go into the curbside recycling cart or should not go into the garbage due to toxicity or recoverability, such as: computer and electronics, prescription drugs and sharps, compact fluorescent light (CFL) bulbs, mercury thermometers, Holiday lights and documents.

Materials are accepted from individual residents that live in a member community, not collected in bulk. Businesses, schools and institutions are not permitted to participate in any program.
