

Electronics Reuse and Recycling Know the Law!

STOP: Don't Throw Your Electronics Away!

Since January 1, 2012, the *Electronics Products Recycling and Reuse Act* specifies **electronics that are banned from Illinois landfills**. In Cook County and throughout the State of Illinois, there are numerous opportunities for residents to recycle household electronics. **Year-round collection sites** and **one-day events** have been established by many municipalities, local government agencies and retail stores in partnership with qualified electronics recyclers - see reverse side for details. Businesses, municipalities, schools and institutions must manage the end-of-life for electronics through qualified electronics recycling contractors. The Illinois Environmental Protection Agency (IEPA) provides information at epa.state.il.us.

By reusing or recycling electronics, you help **conserve** scarce natural resources, **save** valuable energy and **protect** the environment for generations to come!

Banned Electronics:

- Cable Receivers
- Computer Cables
- Computer Monitors
- Computers
- Converter Boxes
- Desktop Computers
