

Oak Street and Cherry Street Bridges over Union Pacific Railroad Bridge Rehabilitation

PUBLIC INFORMATION MEETING OFFER

The Village of Winnetka is proposing to rehabilitate Cherry Street and Oak Street Bridges over the Union Pacific Railroad. The project will consist of repairs to the bridges and adjacent pavement and sidewalk. During construction, each bridge will be temporarily closed to vehicle and pedestrian traffic. Metra access from the Oak Street Bridge will be temporarily closed during construction. The Cherry Street Bridge will be completed and opened to traffic prior to the closure of the Oak Street Bridge. This work is tentatively scheduled as follows:

- Cherry Street Bridge closure March 2019 through July 2019
- Oak Street Bridge and Metra access closure July 2019 through November 2019

Any interested person who believes a public information meeting should be held for this project may request a meeting by contacting James Bernahl at (847) 716-3261 or via email at jbernhahl@winnetka.org. To be considered, requests must be received by September 8, 2017. A public information meeting will be held if the public response demonstrates sufficient interest.

Maps, drawings, and other information are available for viewing and inspection by the general public. Please contact the person listed above to make arrangements to view this material.
