2020 Spring Clean-Up: April 27 – April 30

The Village's recycling contractor, Lakeshore Recycling Systems, will remove from the parkway anything that two people can reasonably lift into a truck. Electronics, yard waste, dirt, stone, logs, construction materials/debris, batteries, paint, and other liquids will not be picked up—visit villageofwinnetka.org to learn more about how to recycle or dispose of many of these items. To minimize litter problems, all items should be placed on residential parkways no earlier than the evening before the scheduled pickup. There will be no call-backs if the material is not on the parkway by 7 AM on the day of your scheduled pick-up.

This is an excellent opportunity to clean out your attic, basement, and garage. Residents are encouraged to recycle items such as cardboard boxes, Styrofoam and plastic bags instead of putting them out for Spring Clean-Up. If you have any questions, please call the Public Works Department at 847-716-3568.

Elm Street Streetscape Construction

This year’s project consists of improvements on both sides of Elm Street between Green Bay Road and Chestnut Street as well as the north side of Elm Street between Chestnut and Birch Streets. This work is primarily for the purpose of upgrading underground utilities, allowing our business districts to thrive. Following utility work, enhancements will be made, including reconstructed sidewalks, new light fixtures, trees, streetscape furnishings, and amenities. The contractor is expected to begin construction activities on Monday, March 16, weather permitting, and the project is expected to be substantially completed by the end of June. Free public parking is available in the lot at Chestnut and Elm, adjacent to the post office, and will remain accessible throughout construction. Please support our businesses by shopping local both during and after construction.

There are 19 trees within the area of this year’s project. Of them, and in conversation with the Village Foresters, 6 trees will be protected during construction with the hope that they can survive the necessary underground utility work. Of the 13 trees to be removed, 7 are Ash trees that either currently are or are likely to become infested with the Emerald Ash Borer. The 6 trees to be removed are either in poor condition, or are in areas where utility and construction conflicts make the tree’s survival unlikely. Once work on Elm Street is complete, 8 new trees will be planted in larger tree pits with structural soil placed underneath the sidewalk. In addition, 21 new trees will be planted along Spruce and Chestnut Streets.
The Village Council is hard at work on two pivotal issues in Winnetka: flood relief in southwest Winnetka and business district revitalization. Phase I of the Downtown Streetscape and Signage Plan was completed last fall; this spring, work will begin on Phase II. We will use lessons learned in Phase I to assure the least disruption to the Elm Street business district and to complete the construction as efficiently as possible. Our Communications and Economic Development managers are working with businesses and Public Works staff to ensure the construction stays on track. We are excited for spring to arrive so the trees and other plantings can be installed, which will entice visitors to use the business district as a meeting/gathering space.

Stormwater negotiations are nearly complete with our governmental partners: Intergovernmental agreements are in place with New Trier High School and District 36, allowing us to construct stormwater detention mechanisms on their properties. An agreement with the Park District is in the final stages of negotiation. Once approved, we can move ahead with permit applications and engineering design for the wetlands detention project on Forest Preserve’s land west of Hibbard Road between Winnetka Avenue and Willow Road. Over the coming months, Village Council will also begin to consider financing options for the project, and will be seeking your input on how to best implement this strategy.

Winnetka’s Downtown Master Plan calls for a greater number and variety of food establishments, and we are hard at work bringing this vision to fruition. Several new restaurants have opened in Winnetka recently: Spirit Elephant, a vegan restaurant at 924 Green Bay Road in Hubbard Woods; and Tocco, an Italian restaurant headed by Chef Bruno Abate, at 507 Chestnut Street in the Elm Street district. A new catering/event space is planned this year in Hubbard Woods, and a new restaurant is expected to open soon in the former Trifecta space at 501 Chestnut Street. Several new food options are in the pipeline for Hubbard Woods, which we are hoping to see before the year’s end.

The Village will roll out new residential refuse collection options over the summer. Those who choose to have curbside pickup will have the opportunity to save money on refuse fees. Also being offered: three different size containers, so those who do not generate a lot of waste can choose the smallest option and save even more. This issue was discussed extensively in 2019; the Village will continue to offer the highest quality refuse collection service, whether you choose to keep back-door collection or opt to save and place your container curbside.

The Village’s Communications Manager has been working with CivicPlus, our new website developer, to redesign the Village website. The new site will provide a more modern look, an enhanced search function, more self-service options, and mobile site optimization. Its integrated technology platform will provide ease of use and will work seamlessly with the Village’s other communications vehicles such as social media and email newsletters. The new website is expected to be up and running in May.

Event season will kick off in Hubbard Woods Park with the North Shore Art League’s Art in the Village on June 13-14. The following weekend, June 19-20, will bring the fourth Winnetka Music Festival to the Elm Street Business District. Save these dates, as you won’t want to miss out on the fun!

As always, I urge you to stay informed and engaged with Village issues and activities. Visit our website, VillageofWinnetka.org, for information on upcoming Village events/programs, and to view Council Meeting agendas and videos.

Best regards,

Chris Rintz
Village President

Sprinkler Restrictions Start May 15
No Sprinkling Permitted on Consecutive Days or Between 12 PM - 6 PM

Winnetka is required to observe the Illinois Department of Natural Resources lawn sprinkling restrictions, which go into effect on May 15 of each year. Sprinkling is prohibited between the hours of 12 PM and 6 PM, and is not allowed on consecutive days. The restricted sprinkling hours are effective until September 15.

Special approval to water during prohibited hours may be requested from the Water Department for cases including newly seeded or sodded areas and for the annual activation/repair of sprinkler systems. To request the special approval, or if you have questions, call 847-716-3558 or email Giovanni McLean at gmclean@winnetka.org.
**Council Action Summary**

**December 3, 2019:** The Council passed the 2020 Budget and Rate Resolutions, along with a Village Code amendment pertaining to Cannabis and Drug Paraphernalia ahead of the state-wide legalization of recreational cannabis use.

**December 17, 2019:** The Council officially closed out the year of celebrations in honor of Winnetka’s Sesquicentennial with a Proclamation, and approved the 2020 Council meeting schedule.

**January 7, 2020:** An intergovernmental agreement (IGA) between the Village and School District 36 was adopted. The IGA gives the Village permission to construct underground stormwater storage on land owned by the school; it also grants zoning variations to District 36 for future school improvements.

**January 14, 2020:** The Council discussed auxiliary policy items to consider in the coming year. Items for consideration include building regulations to protect the fragile lakefront bluff areas; jurisdictional transfer talks for Green Bay Road with IDOT; and long-term capital planning with Winnetka’s other taxing agencies.

**January 21, 2020:** The Council heard a preliminary conceptual presentation for the former One Winnetka site at 714-740 Elm Street and 511-515 Lincoln Avenue. After hearing audience comments and having a discussion with the developer, the Council generally found the proposal to be heading in the right direction as far as height and density are concerned. Public Hearings on a potential formal Planned Development application would be heard by the Village’s new Planned Development Commission.

**February 4, 2020:** Council discussed a Special Use amendment for Winnetka Presbyterian Church at 1255 Willow Road; after a thorough discussion the Council added a condition to the approval Ordinance that the Village and applicant will work together to remediate localized flooding in the area around the church. Rob Apatoff was appointed as Village Trustee to fill the unexpired term of former Trustee Anne Wedner. Mr. Apatoff is on the March 17 ballot for Village Trustee, along with Trustees Penny Lanphier and John Swierk. All three candidates are running unopposed.

**Call JULIE Before You Dig at 811 or 1-800-892-0123**

Most electric, gas, water, sewer and telecommunications companies deliver utility services underground, which is why state law requires you to notify Joint Utility Locating Information for Excavators (JULIE) at least two business days (excludes weekends and holidays) before any digging project, regardless of the project size or depth. Even if you are digging in the same location as a previous project, please notify JULIE. This is a free service.

JULIE provides callers with a continuously improving, one-call message handling and delivery service which protects both underground utilities and the safety of people working or living near them. Visit illinois1call.com for more information.

**Test Backflow Assemblies Before Starting Lawn Sprinkler Systems**

Backflow prevention assemblies are required on all in-ground lawn sprinkler systems, per Village Code and State Statute, and the system must be tested annually. Backflow devices protect the public water supply in the event of a reversal of the flow of water from irrigation lines. Lawn chemicals and other materials can seep into lawn sprinkler lines through sprinkler heads and other openings – potentially contaminating water in the irrigation lines. The water could be siphoned into your home, and the public water supply, without a properly operating backflow prevention assembly in place.

Since many backflow prevention assemblies are located outside, they are susceptible to freezing and bursting unless properly winterized. Therefore, a backflow prevention assembly needs to be tested when starting up a lawn irrigation system each year. The tester should forward the results to the Village’s Water & Electric Department (510 Green Bay Rd, Winnetka, IL 60093) or email rpz@winnetka.org. The Village appreciates your cooperation. Please direct any questions to the Water & Electric Department’s non-emergency line at 847-716-3558.

**Coal Tar Sealant Ban Reminder**

The Village of Winnetka bans the use of coal tar-based sealing agents on all public and private driveways, parking lots, and other roadway surfaces. Coal tar is a waste material generated during coal processing that contains high levels of chemical compounds shown to be harmful to aquatic life and pose a potential risk to humans.

As required by this ban, all contractors and multi-family property owners must obtain a Pavement Sealant Applicators License through the Public Works Department. Property owners of single family lots applying sealant themselves do not need a Pavement Sealant Applicators License.

As an alternative to coal tar-based sealants, the Village recommends using asphalt-based sealants replacing asphalt with concrete driveways, or leaving driveways unsealed. For more information, please call the Public Works Department at 847-716-3568.
Upcoming Residential Refuse Changes

Beginning in summer 2020, the Village will begin offering a once-a-week curbside refuse collection option at a reduced monthly fee. The goal of the program is to provide residents more flexibility to meet their refuse collection needs, and to have more control over their monthly costs. This change will help the Village continue to provide this service in an efficient and cost effective manner. Please note that back door pick-up will still be available as one of the collection options for current residents.

As a part of the new program, the Village will provide residents who select a curbside collection option with a new wheeled container similar to the curbside recycling containers. Residents will have the option to select the container size and collection option that best suits their needs. The Village will provide residents with additional details on service and container selection as the program gets closer to implementation. No action is required from residents at this time.

Spring Tree Planting Deadline is April 15

Each year, the Village of Winnetka plants about 200 trees in parkway areas. Trees are vital to Winnetka’s aesthetic and provide many important benefits. The Village is currently taking requests from residents who would like a tree planted in front of their homes in the spring. Trees up to 2 ½” trunk diameter size are planted at no cost to residents. Trees will be planted within the Village-owned parkway.

For a listing and description of all tree species available from the Village, please call the Assistant Village Forester at 847-716-3289. The deadline for spring tree requests is April 15.

Celebrate Arbor Day on April 24

Arbor Day has been celebrated since the tradition first began in 1872 in Nebraska. Today, Arbor Day is internationally celebrated around the world as a way to recognize the many social, ecological and economic benefits trees provide.

The Village of Winnetka invites residents to participate in Arbor Day on April 24 at Village Hall, 510 Green Bay Road. Seasonal tree information displays, along with free tree seedlings, will be available.

If you have any questions or need an inspection of your own trees, please call the Assistant Village Forester at 847-716-3289.

The Winnetka Futures 2040 Comprehensive Plan Community Open House

Wednesday, March 18, 6:30 – 8:30 PM
North Shore Country Day School Library
310 Green Bay Road

A comprehensive plan is a long-term vision for the community that serves as an official policy statement to guide the Village’s future. The planning process for our 2040 plan is in full swing, and the Village needs your input to better understand and address topics including: a radically changed retail environment, transportation, mobility, an aging population, evolving housing preferences, environmental issues, sustainability, and changing work and commuting habits. Stop by the March 18 open house at any point and make your way through interactive stations to provide your ideas regarding Winnetka’s future.

For further information visit winnetkafutures.org

Electronics Recycling Program Resumes in April

The Solid Waste Agency of Northern Cook County electronics recycling program will resume on Thursday, April 9, 2020. The program takes place at the Winnetka Public Works facility every Thursday from 1–3 PM. The Village will continue its other recycling programs year-round, which includes recycling of items such as Styrofoam, CFL bulbs, batteries, handheld electronics, holiday lights and gym shoes. Please contact the Public Works Department at 847-716-3568 with questions.
**Winnetka Business Update**

Hubbard Woods is the place to be for new businesses in Winnetka in 2020. In December, *Ciao Bella Sewing Studio* expanded their space at 874 Green Bay Road Suite. Ciao Bella Sewing offers popular youth and adult sewing and craft classes and hosts camps and classes via the Winnetka Park District and the New Trier Extension program. In January, *Spirit Elephant* opened its doors as the first fully plant-based restaurant and bar in the North Shore at 924 Green Bay Road. The restaurant offers valet parking, and starting in spring, will be open for lunch, as well as dinner.

In West Elm, women’s clothing store *Bunny and Babe* opened in West Elm at 555 Chestnut Street. They offer ready to wear fashion, home goods and accessories. Congratulations to women's swimwear retailer *Londo Mondo* at 558 Green Bay Road, which celebrates its 5th Anniversary at its Winnetka location in February.

*Sole + Luna* received zoning approval and was issued permits in February to begin building out space at 1015 Tower Road. They will provide modern, cutting-edge modalities of wellness and self-care, and are slated to open by late spring.

The Village has participated in three preliminary walk-throughs of various commercial spaces with prospective tenants and real estate brokers since December. We continue to recruit new businesses to open in Winnetka, and provide specific marketing opportunities to promote existing merchants.

**New Business Resource Liaison Officer**

Winnetka Police Officer, Josue Perez, is the Village’s Business Resource Liaison Officer. This newly created position is dedicated to business concerns, including traffic and parking issues; security assessments and crime reduction advice; providing education and resources on topical concerns; and provide merchant alerts when crimes occur. Officer Perez looks forward to meeting with local merchants to discuss any law-enforcement or security-related concerns. Please contact him to set up a visit at *jperez@winnetka.org*.

**Message from the Police Chief**

With spring comes tax season and related tax scams. Phishing scams are common, in which offenders purport to be from the Internal Revenue Service and solicit information. Remember, the IRS will never send you an email or call you on the phone to request personal financial information. Additionally, the IRS will not call and threaten you with imprisonment.

The Police Department will at times receive inquiries from residents about animal-related issues. With respect to wildlife on private property, police personnel can provide limited assistance when an animal is sick, injured, or poses a threat to public safety. We are not authorized to trap or remove wildlife. Removal of wildlife must be accomplished through a private licensed trapper. For domestic animals, police personnel will temporarily take custody and house a stray dog in an attempt to identify an owner. We do not trap or house stray cats. A Village ordinance requires dogs to be leashed and kept under control at all times.

The Police Department responds to many different types of calls for service throughout the Village at all hours of the day/night. When responding to an emergency, every second counts. Finding a home in low light conditions can be challenging if the address is not properly displayed. Residents can help by ensuring addresses are prominently displayed on their home/property. Addresses should be illuminated and not obscured by landscaping or overgrown foliage.

Please remember to stay vigilant when it comes to the security of your vehicles. Auto burglary and theft prevention continue to be a priority for officers. **Do not leave your vehicle unattended with the engine running.** This is both dangerous and against the law. When leaving vehicles parked in your driveway, please remove any valuables or keys/fobs and lock your vehicle. Illuminate the outside of your home and keep the overhead garage door closed. If you see or hear something suspicious, call 911 immediately. If the suspicious activity occurs at night, do not wait until the morning to call the police.

---

*villageofwinnetka.org*
Message from the Fire Chief

Spring is a great time to look around your house and garage for items that are creating clutter, have expired, or are no longer provide usefulness. The Village of Winnetka, in conjunction with the Solid Waste Agency of Cook County, offers several programs at no cost that could assist you with these items. The Fire Department recommends taking advantage of these services to reduce combustible storage and remove unneeded household chemicals and medications from your home.

The programs include:

Expired Medication: Medicine that has expired or is no longer needed should not be flushed down the drain or thrown in the garbage. Both methods could contaminate the water supply. The Fire Department (428 Green Bay Road) will accept all expired or unneeded medication for proper disposal. The only exception is controlled substance narcotic: collection of narcotic medications is done annually in the fall by the Winnetka Police Department.

Sharps/Syringes: The Fire Department accepts used syringes for proper disposal. “Sharps” containers are available at the Fire Department for no charge. We ask that all sharps are sealed in a proper sharps container for easy identification and protection from accidental cuts or sticks.

Household Chemical Waste: These are the many cleaners, paint and other chemicals that you typically find in the garage or basement and are no longer useful. Several times throughout the year, SWANCC holds a Household Chemical Waste Collection Day. The dates and locations can be found at swancc.org. They also have permanent drop off locations year-round.

Document Shredding: Old bills, tax forms, medical records and other documents should be shredded to avoid identity theft as well as protecting one’s privacy. Document shredding companies will come to your home for a fee to shred your personal documents. SWANCC also offers several document shredding events throughout the year at no cost to Winnetka residents.

Electronics: Our Public Works Department coordinates the recycling of computers, televisions and other electronics, and collection resumes in Winnetka on Thursdays from 1-3 PM on April 9. Swancc.org lists acceptable items for electronic recycling.

Styrofoam: Styrofoam is accepted year-round at the Public Works facility during normal business hours.

Spring Clean-Up: The Winnetka Annual Spring Clean-Up is scheduled for the week of April 27, weather permitting. This is an opportunity for all Winnetka residents to get rid of any unneeded items simply by placing them at the curb for pickup. View details on page 1.

Thank you and be safe.

Winnetka Preservation Awards

The Winnetka Landmark Preservation Commission recently awarded Preservation Awards to five Winnetka properties. The awards were presented at the February 18, 2020, Village Council meeting.

The Preservation Awards are an annual program that honors construction projects in the Village that have helped preserve its history and character. The program has three categories of awards: Restoration, Rehabilitation, and New Construction. The properties do not necessarily have to be landmarks: in fact most of the winners are not. The winners, decided by the Landmark Preservation Commission, are properties that exemplify the historic character, architectural distinctiveness, and design aesthetic of the Village.

250 Poplar Street (Rehabilitation)
Owners: Sherri and Eric Zion
Architect/Designer: Thomas Buckley
Architect & Associates

510 Sheridan Road (Rehabilitation)
Owners: Brian and Margaret Higgins

514 Willow Road (Rehabilitation)
Owners: Kendra and Matt Thornton
Architect/Designer: Morgante Wilson Architects

700 Elm Street (Rehabilitation)
Owners: The Hadley Institute for the Blind and Visually Impaired
Architect/Designer: Fitzgerald Architecture Planning Design

824 Boal Parkway (New Construction)
Owners: Steve and Kristin Dimakos
Architect/Designer: Edward Deegan Architects

The Winnetka Landmark Preservation Commission will accept nominations for next year’s program beginning in March 2020. Information about the awards is sent to residents who receive E-Winnetka, the Village’s weekly newsletter. To sign up for the newsletter, visit villageofwinnetka.org.

Congratulations to all the award recipients!
Chamber Recognition Lunch Honors “The Best of Winnetka and Northfield” on April 8

The Winnetka-Northfield Chamber hosts the 44th Annual Recognition Lunch on Wednesday, April 8 from 11 AM–1:30 PM in Matz Hall at the Winnetka Community House at 620 Lincoln Avenue. This lunch recognizes local citizens, educators, public servants and businesses for their extraordinary commitment to community service. In a community of dedicated people, these individuals have distinguished themselves with their tireless service, enthusiastic support, and strong leadership.

Chamber businesses are showcased through silent auction offerings, as well as a fashion show featuring spring trends from 15 local retailers in both villages.

The Winnetka-Northfield Chamber of Commerce supports and encourages the development and success of local businesses for the benefit of our vibrant communities. The Recognition lunch honors businesses that make our community one of the best places to live. Tickets and further information on the honorees are available online at winnetkanorthfieldchamber.com.

Upcoming Construction Projects

Annual Street Rehabilitation Program
As part of the Village’s commitment to maintaining its infrastructure, the Public Works Department will complete repairs to various streets within the Village. Work activities for this year’s program are expected to begin in April and be substantially completed by the end of September, weather-permitting. Residents living on affected streets will receive additional notices from the Village with construction and scheduling details before construction starts.

The contractor performing the work for this year’s program is A Lamp Concrete Contractors. They have performed this work for the Village in the past and staff is confident they will meet the Village’s needs and expectations. A list of the proposed roadways receiving improvements is as follows:

<table>
<thead>
<tr>
<th>STREET</th>
<th>FROM</th>
<th>TO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cherry Street</td>
<td>Hibbard Road</td>
<td>Glendale Avenue</td>

<td>Rosewood Avenue</td>
</tr>
</tbody>
</table>

The majority of roads that will be rehabilitated will consist of grinding the existing surface, repairing curbs where needed, replacement of damaged public sidewalk, minor storm and sanitary sewer repair, replacement of water mains and related services, and resurfacing. Elm Street between Birch and Locust Streets will be fully reconstructed with new curbs and gutters, as well as full-depth asphalt pavement. Residents affected by the installation of new water mains and water services will be notified prior to the work taking place and with a minimum of 48 hours before any water service interruptions.

Boal Parkway Stormwater Pump Station Project
As part of the Village’s commitment to improving stormwater management, the Village will construct a new stormwater pump station on Boal Parkway, adjacent to Tower Road to help reduce the amount of standing water and property damage caused by large rainfall events. This project also consists of improvements to existing storm sewers and the addition of a new electrical feed to provide power to the pump station. The Village anticipates construction to begin in early summer and, weather permitting, be completed before fall 2020.

Electric Vehicle Charging Station Opened in West Elm

The Village of Winnetka opened its first electric vehicle charging station in the post office parking lot (at Elm and Chestnut streets in the West Elm shopping district). The charging station is on the ChargePoint network, so appears on ChargePoint’s mobile app, in a variety of in-car navigation systems, and on chargepoint.com. Electric vehicles are typically fully charged in 4-5 hours at a charging station.

The installation of the charging system reflects the Village’s commitment to responsible environmental stewardship and the efforts to modernize Winnetka’s business districts. The Village is proud to offer this service to residents and visitors.

Village Council Meetings

Meetings start at 7 PM at Village Hall, 510 Green Bay Road.
Agenda materials are available at villageofwinnetka.org “Meetings & Agendas” or at the Winnetka Library Reference Desk and Village Hall Manager’s Office.
Webcasts of the meetings are available the following morning at villageofwinnetka.org “Watch Council Meetings.”

Memorial Day Observance

May 25, 10 - 11:30 AM

The Winnetka Park District invites the community to the Village’s annual Memorial Day observance. The parade begins at 10 AM from the corner of Glendale and Elm Streets and heads east to the Village Green, 525 Maple Street (between Elm and Oak Streets). A ceremony immediately follows on the Green. In case of inclement weather, an indoor ceremony will be held in the auditorium at The Skokie School. If you are interested in volunteering as a parade marshal, please contact Toby Ross at 847-501-2040.
